Dear Southeastern Massachusetts HIV Service  
Consumers and Providers:

This *Resource Guide* is the result of the commitment of many individuals whose purpose is to provide you with information that we believe will enable you to locate the information you need most — quickly, easily, and successfully. It is not intended to be a comprehensive listing, but rather our first attempt to pull together a *quick reference guide* for providers and consumers.

The ***HIV/AIDS Service Coordination Collaborative*** is a network of providers and consumers working together to strengthen and improve the constellation of services available to people living with HIV/AIDS. Our goals are to improve referral networks, build referral capacity, identify and address gaps and barriers in the southeast area HIV/AIDS service system, reduce service duplication, improve the delivery of HIV-related services in the area, and support consumers in moving from one service to another, as needed.

We hope that this guide will be an effective tool in the goal of serving those living with HIV/AIDS in Southeastern Massachusetts.

Sincerely,

The South Coast HIV/AIDS Service Coordination Collaborative  
Resource Guide Working Group  
Health Care of Southeastern Massachusetts, Inc.
