

May 2007 is National Hepatitis Awareness Month Support Hepatitis A & B Vaccination!

What you can do:

Start talking with your colleagues and co-workers about designating **May as Hepatitis Vaccination Month** in your program. *What would this mean?*

- Post flyers and distribute brochures in May about hepatitis vaccination (*print and post the attached materials throughout your program, hang in your office, on community bulletin boards, in common spaces including reception areas, kitchens and bathrooms*);
- More conversations with clients about hepatitis vaccination;
- Increased information in May about where hepatitis vaccination happens in your local community (*share the vaccine provider listing with your co-workers for their use*);
- Provide more information on hepatitis vaccination to your co-workers (*give them the attached cue cards*);
- Contact your local hepatitis vaccination provider, introduce yourself and your program, find out information you need to make a good referral; and
- Help clients get vaccinated (*Consider counting how many clients are referred for hepatitis vaccine, and let us know!*).

SPHERE can help. Contact us—by phone at (800) 530-2770 or by e-mail at SPHERE@hcsm.org.
